

Plug In and Go

Professional IT services for every business

The SCA Group's **Plug In and Go** service provides and manages EVERYTHING you need technology-wise to run your business, including laptops, tablets, anti-virus & anti-spam protection, domain name and email services, cloud backup, Office 365 and remote support.

All covered by a single monthly payment and put together on a one-to-one basis tailored to meet your precise IT needs. Packages include brand new equipment and there are no nasty surprises – and with managed anti-virus and email screening there will be no nasty anything!

We've teamed up with Microsoft, Lenovo and Kaspersky to deliver a unique offer for a limited time only – enquire today about how SCA can change the way IT works for your business.

Choosing the right package for your business

Our flexible ready-for-business packages can be scaled up as your organisation grows and they work equally well for solo operators and entrepreneurs right up to big businesses with hundreds of employees.
